PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate (Data Science & AI) at IIIT Ranchi with hands-on experience building responsive web applications using React.js, JavaScript, HTML5, CSS3, and REST APIs. Solved 300+ Data Structures and Algorithms problems across competitive programming platforms. Adept at developing clean, scalable frontend solutions with strong foundations in OOP, DBMS, and operating systems. Seeking a software development internship to contribute to impactful products.

EDUCATION

Indian Institute of Information Technology (IIIT) Ranchi

2024 – 2028

B.Tech – Computer Science & Engineering (Data Science & AI) CGPA: 7.31/10

Ranchi, Jharkhand

TECHNICAL SKILLS

Languages	C, C++, Python, JavaScript, SQL
Frontend	HTML5, CSS3, Bootstrap, React.js, Responsive Web Design, DOM Manipulation
Backend & APIs	REST APIs, JSON, API Integration, Node.js (Basics)
Databases	MySQL, MongoDB (Basics), Firebase
Tools	Git, GitHub, VS Code, Postman, Netlify, GitHub Pages
CS Fundamentals	Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

PROJECTS

Weather Forecast Web Application — *React.js, REST API, JavaScript*

GitHub

- Built a real-time weather application integrating the OpenWeatherMap REST API, enabling live city-based weather data retrieval with under 1-second response display.
- Architected reusable React functional components with useState/useEffect hooks, implementing robust error handling, loading states, and fallback UI for failed API calls.
- Delivered dark/light mode toggle and responsive layouts across mobile, tablet, and desktop viewports, improving usability across all screen sizes.

She Can Foundation Website — *HTML5, CSS3, JavaScript*

GitHub

- Designed and developed a 5+ section responsive NGO website featuring mission, initiatives, events, and community impact pages, increasing digital presence for the foundation.
- Implemented mobile-first responsive design with CSS Flexbox/Grid, ensuring cross-browser compatibility and smooth UX across all device sizes.
- Applied modern UI principles (card components, hover effects, smooth scroll) to improve user engagement and visual hierarchy.

Personal Portfolio Website — *HTML5, CSS3, JavaScript, GitHub Pages*

GitHub

- Built and deployed a fully responsive developer portfolio showcasing 5+ projects, technical skills, and achievements; hosted on GitHub Pages with CI/CD via Git version control.
- Integrated CSS animations, smooth scrolling, and JavaScript-driven interactive elements, reducing bounce rate through improved UX.

Stranger Things Themed Interactive Website — *HTML5, CSS3, JavaScript*

GitHub

- Created an immersive themed web experience using advanced CSS keyframe animations, JavaScript event listeners, and dynamic DOM manipulation for storytelling effects.
- Focused on accessibility and cross-device responsiveness while maintaining engaging visual design with custom typography and atmospheric visual effects.

EXPERIENCE

Competitive Programming – LeetCode — CodeChef

Nov 2024 – Present

Independent Contributor

- Solved 300+ DSA problems spanning arrays, strings, linked lists, stacks, queues, trees, graphs, and dynamic programming, building strong algorithmic problem-solving fundamentals.
- Regularly analyzed time and space complexity (Big-O) to optimize solutions, strengthening readiness for technical interviews at product-based companies.
- Participated in timed coding contests, simulating real-world interview pressure and improving speed and accuracy.

ACHIEVEMENTS & ACTIVITIES

- Solved **300+ DSA problems** on LeetCode and CodeChef within the first year of college; targeting 500+ by end of sophomore year.
- Developed and deployed **4+ responsive web applications** using React.js, HTML5, CSS3, and REST APIs, with live GitHub projects demonstrating real-world frontend skills.
- Participated in **CP Rumble**, an intra-college competitive programming contest organized at IIIT Ranchi, earning a participation certificate and gaining experience in contest-style algorithmic problem solving under timed conditions.
- Actively participated in **technical workshops** and collaborative development activities to continuously upskill.
